

Thank you for your interest in Microlise! We are a **GPTW (Great Place To Work)** certified software product company headquartered in the UK. We are a leading logistics software partner of leading UK based OEMs and large fleet operators. Our India offshore development center is based at Baner Road, Pune and is in operation since 2019.

INTERVIEW PROCESS

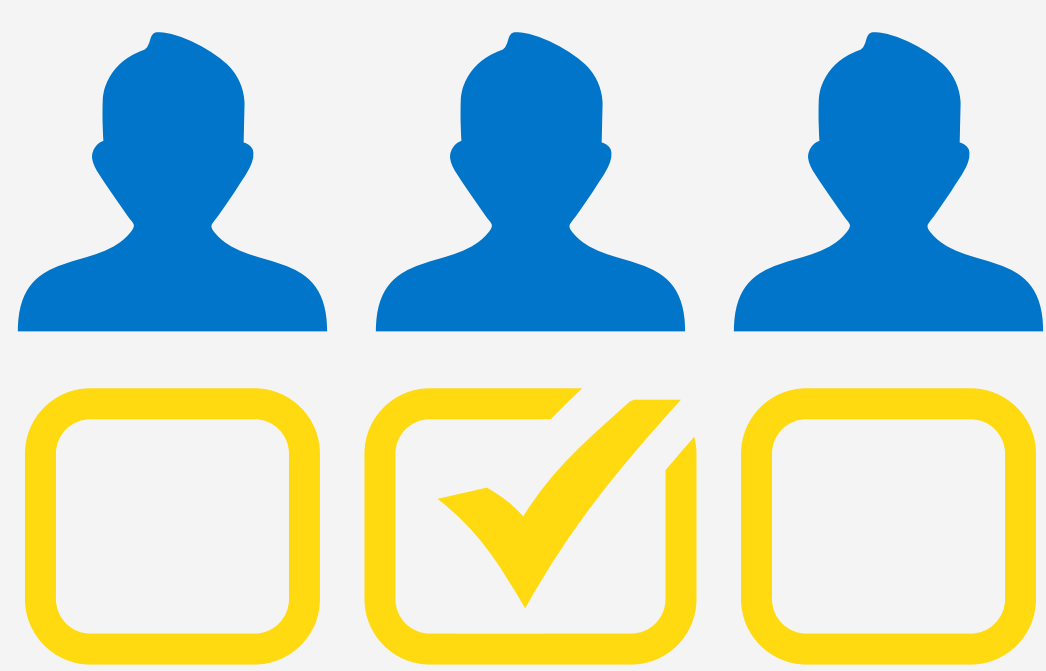

THE FOLLOWING INFOGRAPHIC WILL GIVE YOU A SNEAK PEEK INTO OUR INTERVIEW PROCESS.

**PROFILE SCREENING AGAINST
THE JOB REQUIRMENTS**

Step 01

Depending on the requisition, your resume may suffice for our screening OR we may ask you to fill a quick form to understand your profile better.

**BRIEF TECHNICAL FITMENT
CHECKING ROUND**

Step 02

Your first round interview will typically be a short 30-45 minute discussion to understand your technical skill set better and check that you meet the minimum viable criteria for the position at hand

**DETAILED TECHNICAL
SCREENING ROUND**

Step 03

Your second round with Microlise will be the detailed technical screening to ensure you indeed have sufficient expertise on the desired skill set. For certain positions, the second round will be with an UK based panel. Your eventual line manager may join either of the above discussions.

**HR INTERACTION AND
OFFER DISCUSSION**

Step 04

If you pass the technical evaluation, Microlise HR team will have an interaction with you and if everything is in order then we will proceed to the offer making stage.

All employees joining any of the Microlise offices across the globe has to undergo

1. a background verification check
(to validate accuracy of education, employment and residential details)
2. a 3 months training and probation window to get you ramped up and productive quickly.
